The Caterpillar C7 Engine was produced from 2003 - 2009 and was originally touted to be the greatest CAT Engine ever made. However, things don't always go according to plan. Read about the history and technical specs of this legacy engine.

The Heartbreaking History of the CAT C7 Engine

Since you do not have an AC signal going to the injectors while cranking, there must be an electrical problem with the engine. In order to start the C7 engine needs: Power to the ECM (your light comes on so we know there is power) A good ECM (your light comes on so we know the ECM is operating) The next thing you need is an engine Speed Timing signal

C7 ACERT CAT with starting problems - Please help.

C7's are good engines. However, the fuel pumps can fail and will put metal into the injectors. Cat would suggest full injector replacement and fuel pump, as well as cleaning out the fuel rail inside the head. This most often happened after they were ran out of fuel. It is imperative to be 100% clean when dealing with this fuel system.
