**Solution Manual |
John David ...**

Classical
Electrodynamics by
Jackson gives a general
discussion of
mathematics whenever
it is, required, which is
often sufficient to
handle the problems.
The emphasis of the
summary is primarily
on the methods in
solving the problems.
The first part discusses
electrostatics and
magnetostatics.

In section 1.9 of Jackson, it is shown that the solution for this problem is unique. The constant value of the potential on the outer surface of the cavity satisfies Laplace's equation and is therefore the solution. In other words, the hollow conductor acts like an electric field shield for the cavity. 7 8
