Which fraction is closer to 1: __3 4 or ___5 12? Use the number lines below to justify your answer. 2 4 1 4 3 4 01 6 12 7 12 8 12 9 12 10 12 11 12 1 12 2 12 3 12 4 12 5 12 01 ln 11 ...

Topic Fractions, Mixed 10 Numbers, and Decimals

In this section, we will add and subtract decimal numbers. The process of adding and subtracting decimal numbers is the same as adding and subtracting whole numbers. For example, both involve regrouping. After lining up the decimals, you will sometimes have to add one or more zeroes to a number after the decimal point.

How to add and subtract decimals? | StudyPug

The total number of decimal places in the factors is the same as the number of decimal places in the product. We can check the resulting quantity by estimating. For the next three problems on the INM, I want students thinking about the key point above, and consider the number of decimal places in the factors as a guide to their calculation.

Sixth grade Lesson Multiplying Decimals | BetterLesson
