### **Business Ethics (Stanford Encyclopedia of Philosophy)**

Business ethics is the study of those standards of business behavior that do the same thing—promote human welfare and the good. Ethics can really be thought about at three levels: how we act as individuals; how our organizations act; and how we structure our society. Similarly, business ethics can be thought about at those same levels.

### **Business Ethics - Markkula Center for Applied Ethics**

Many ethical business practices are related to how employees within a company are hired, treated, and promoted. This often includes policies that discourage discrimination, attempt to avoid issues regarding fraternization between different levels of employees, and seek to find fair ways to settle conflict within the company. These
