Perspective on current trends in U.S.  
assessment and accountability : degrees  
of coherence / Mark Wilson. Summary In  
analyses of the role of national  
educational assessment, insufficient  
attention has been paid to the central  
place of the classroom. Rather than  
encouraging a two-way flow of  
information, today's "standards-based"  
frameworks tend to direct the flow of  
accountability from the outside into the  
classroom.

assessments and large-scale assessments. These three challenges are assessing complex constructs, assessing learning over time, and assessing both the breadth and depth of knowledge and practices.

## **Toward coherence in curriculum, instruction, and ...**

Developmental coherence refers to the idea that LPs, as cognitive models, should describe development in students from intuitive thinking to scientific thinking. It provides a foundation for building the horizontal coherence (the alignment among curriculum, instruction, and assessment) and the vertical coherence (the linkage between classroom and large-scale assessments).

Asking students to demonstrate their understanding of the subject matter is critical to the learning process; it is essential to evaluate whether the educational goals and standards of the lessons are being met. From Edutopia.org's Assessment Professional Development Guide.

## **Why Is Assessment Important? | Edutopia**

The Benefits of Assessment. Using classroom assessment to improve student learning is not a new idea. More than 30 years ago, Benjamin Bloom showed how to conduct this process in practical and highly effective ways when he described the practice of mastery learning (Bloom, 1968, 1971). But since that time, the emphasis on assessments

Instructional and assessment practice can (and should) be different to ensure that learning happens. This is where differentiated instruction and assessment comes in. Teachers need to create a variety of entry points to ensure that student differing abilities, strengths, and needs are all taken into consideration.

The goal of assessment is to improve student learning. Although grading can play a role in assessment, assessment also involves many ungraded measures of student learning (such as concept maps and CATS). Moreover, assessment goes beyond grading by systematically examining patterns of student learning across courses and programs and using this ...
